

Climate change is not a future threat; it is a threat now, and we need to take urgent action. The decisions we make today will determine the future we leave to our children.

We also need to prepare for the consequences of climate change, which are already affecting our environment, our infrastructure, our economy, and, yes, even our health.

More frequent and intense heat waves are leading to higher rates of heat stroke. Warmer temperatures are also directly affecting vector-, food-, and waterborne diseases and causing longer allergy seasons.

We need to understand and prepare for these changes. That is why I led a letter to the House Appropriations Committee urging support for the Centers for Disease Control and Prevention Climate and Health Program to help our city and State health departments address and prepare for the effects of climate change.

I am pleased that funding for their important work has increased to \$15 million in this year's bill. I urge my colleagues to support this provision to help vulnerable communities adapt to the health threats of climate change.

CONDITIONS OF MIGRANT DETENTION FACILITIES ARE INHUMANE

(Mr. GARCÍA of Illinois asked and was given permission to address the House for 1 minute.)

Mr. GARCÍA of Illinois. Mr. Speaker, I am joined today by my colleagues to show our country the inhumane conditions of migrant detention facilities.

As a grandfather and an immigrant, my heart breaks every time another child dies in U.S. custody.

Migrants are escaping some of the harshest political and economic turmoil in Central America, only to have their children die once they arrive here. Like 1-year-old Mariee Juarez and her mother who fled domestic abuse in Guatemala, then she died in a U.S. hospital after receiving inadequate care.

We don't allow prisoners to die. How are we allowing children to die in Federal custody?

Last week, the inspector general of DHS confirmed what we already knew: Conditions are dangerous and unsanitary.

This is cruel and un-American. This cannot be the new normal. What the President is doing is anything but normal.

When Attorney General Sessions initiated this, it was a bad way to move forward.

Is this the message that President Trump wants to send the world, that the U.S. is where children come to die?

How many children must die before this administration acts?

CELEBRATING NATIONAL HOMEOWNERSHIP MONTH

(Mr. THOMPSON of Pennsylvania asked and was given permission to ad-

dress the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, June is National Homeownership Month, and it is the time when we celebrate and recognize the many benefits of owning a home.

For generations of Americans, owning a home has been an essential element in achieving the American Dream. But since the Great Recession, we have seen homeownership rates dip to historic lows.

Young families often find themselves unable to save for a down payment or gain access to adequate credit, and that is especially true for those living in rural areas.

The U.S. Department of Agriculture places emphasis on helping rural Americans buy homes. USDA provides mortgage loan guarantees through partnerships with private-sector lenders to help low- to moderate-income rural home buyers. USDA has helped more than 4.4 million rural residents buy homes since the National Housing Act was passed 70 years ago.

Mr. Speaker, homeownership has widespread benefits: It fortifies communities, creates jobs, and strengthens the local businesses that support our towns.

I thank USDA for its commitment to providing affordable housing for rural Americans. By helping hardworking Americans achieve this dream, it provides a strong foundation for more prosperous rural communities.

AMERICA IS BETTER THAN THIS

(Mr. ESPAILLAT asked and was given permission to address the House for 1 minute.)

Mr. ESPAILLAT. Mr. Speaker, I have seen with my very own eyes the way migrants at the southern border, particularly children, are treated under U.S. custody. It is so appalling, we would not ever accept one of our own children being treated in such conditions in any country across the world. Young toddlers go days without proper hygiene, nutrition, or medical treatment.

These awful conditions have led to the deaths of minors at the hands of our government, like Felipe Gomez Alonzo, who was just 8 years old.

If this administration's plan is to mistreat refugees to prevent them from coming here, it clearly is not working. Just think, if they would rather risk this treatment than remain in their home countries, how bad must it be there?

America is better than this. We must treat immigrants better than this. We must treat refugees better than this. We must treat children better than this.

Mr. Speaker, the whole world is watching.

ADDRESSING HUMANITARIAN CHALLENGES FACED AT SOUTHERN BORDER

(Ms. ESCOBAR asked and was given permission to address the House for 1 minute.)

Ms. ESCOBAR. Mr. Speaker, on May 31, the Department of Homeland Security's Office of Inspector General published an alarming report that confirms the terrible consequences of the Trump administration's failure to truly address the humanitarian challenges we face at our southern border.

Instead of working with Congress and leaders in our hemisphere on addressing root causes and policy that represents America's values of compassion, the administration, instead, chooses cruelty.

As a result, agents and officers are overworked, exhausted, and frustrated. Communities like mine are stretched beyond capacity, and migrants are in inhumane conditions.

The photos and description of the conditions at the Paso Del Norte Processing Center in my district are beyond disturbing:

Migrants standing on toilets to make room and gain breathing space;

A cell with a maximum capacity of 35 holding 155 migrants;

Detainees wearing soiled clothing for days or weeks;

The list goes on.

I visited the PDN Processing Center when I was home this weekend, and one thing is clear: Congress must establish, and DHS must abide by, humanitarian standards. Not doing so is immoral and un-American.

ICE SOLITARY CONFINEMENT

(Ms. GARCIA of Texas asked and was given permission to address the House for 1 minute.)

Ms. GARCIA of Texas. Mr. Speaker, I rise today to condemn the inhumane treatment of immigrants at detention centers around the country.

Recently exposed documents paint a gruesome picture of ICE custodians abusing the practice of solitary confinement on immigration detainees. Often these detainees have not violated rules or shown dangerous behavior, but, in some instances, are being held in isolation because they are disabled or because they identify as gay.

Even under ICE's own guidelines, solitary confinement is a serious step that requires careful consideration of all alternatives. Yet, ICE is using this practice as a tool of first resort, not last resort. One detainee noted that the strain of the isolation made him lose his mind.

These reported cases reveal what we already feared: that this administration is committed to widespread abuse of human beings simply because of who they are and where they come from.

Mr. Speaker, I learned at an early age that we are all God's children. This is not the way to treat God's children.
